## PROFILE

Proficient in modern technologies including React Native, Python, FastAPI, and Firebase, with capabilities in mobile/web development, cloud solutions, and AI integration. Backed by a strong academic foundation in IT from the University of Punjab, I aim to apply my versatile technical skills in a professional software house while continuously growing as an innovative developer.

## ACADEMIC PROJECTS

### AI FASHION RECOMMENDATION APP (FYP)

- AI fashion app for outfit recommendations using TensorFlow & EfficientNet.
- FastAPI backend for smart predictions and recommendations.
- Firebase integration with Virtual Try-On for interactive experience.

### CALCULATOR APP

- A mobile-friendly calculator app built using React Native with the help of expo.

### COLLEGE ANNOUNCEMENT WEBSITE:

- College announcement website built with PHP & MySQL.
- CRUD operations (Add, Update, Delete) for managing announcements.
- Developed using XAMPP for local hosting and testing.

## SKILLS

- Programming: Python, JavaScript (ES6+), PHP, SQL, HTML, CSS.
- Frameworks: React Native, FastAPI, Node.js (basic)
- Databases: Firebase Firestore, MySQL, XAMP Server.
- AI/ML: TensorFlow, EfficientNet.
- Tools: Git/GitHub, REST APIs

## EDUCATIONS

### BACHELOR IN IT

FG postgraduate College, University of Punjab
2021-2025
